About us

Brought to you by SPACE Property Agents, RealEstatePaddingtonUpdate.com is a convenient place to source local and national real estate information. Combining a hand-picked selection of helpful hints, interviews, suburb profiles, market statistics, finance and media updates; all is aimed to assist you in your journey to find your ideal space.

This blog is aimed to inspire you with real estate knowledge. We love finding out more on what information you want or need, what you are looking for, what you are not looking for, your questions, your concerns, your loves, your hates, your uncertainties; in turn, we use this information to impart all that we know in ways that will be beneficial to you.

So why read our blog?

With thousands of new blogs being created every minute, each with multiple perspectives on varying issues, it can sometimes be time consuming and confusing trawling through so much in order to find exactly the information you are looking for.

Here at SPACE Property Agents, we saw the need to create a central vehicle to easily communicate only the relevant information that our clients were after. By reading our real estate blog you are able to tap into this source of knowledge, brought to you by industry professionals, and really start to become more informed when it comes to making the right decisions about buying, selling or renting your home.

With all of the information that is now available online it can be an easy assumption to believe that we all know everything about real estate; the ins and outs, the pro's and con's, the right time and wrong time to buy and/or sell, etc. Some may know a little more than others; but ultimately there is a never-ending wealth of knowledge now available to the consumer.

The benefits of reading our blog are numerous with the main advantage offering a new form of interaction between you and the people who live and breathe real estate every day. This is a unique opportunity to request and find information anonymously which in turn makes it easier for you to form honest opinions without feeling pressured.

We are always looking for further insight and feedback from our clients as to what advice and information you are looking for... Please feel free to comment and let us know exactly how we can help you.
